# HR Digital Transformation

*What is it and why is it important?*

*"The office is the last corporate holdout to the automation tide that has swept through the factory and the accounting department..."*

*...office automation has emerged as a full-blown systems approach that will revolutionize how offices work."*

**- BusinessWeek, June 30, 1975**

Unleash people, processes, and technology to reposition HR to drive business outcomes through enriched employee experiences.

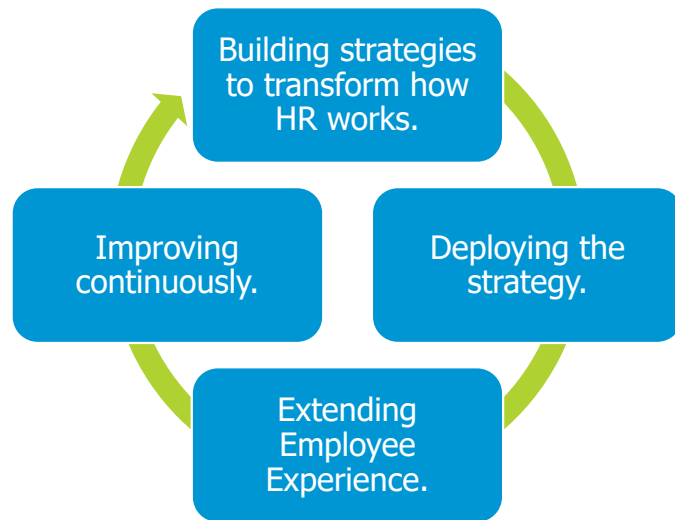

What HR Digital Transformation **is**:

It is about *being* digital.

What HR Digital Transformation is **not**:

- Buying technology to solve a problem.
- Implementing a tech project.

**It is less about the application of technology  
and more about deploying a framework that  
elevates and advances the workforce.**

# STAGES OF DIGITAL TRANSFORMATION

## **BUSINESS AS USUAL:**

Organizations operate with a familiar legacy perspective of customers, processes, metrics, business models, and technology, believing that it remains the solution to digital relevance.

## **PRESENT AND ACTIVE:**

Pockets of experimentation are driving digital literacy and creativity, albeit disparately, throughout the organization while aiming to improve and amplify specific touch-points and processes.

## **FORMALIZED:**

Experimentation becomes intentional while executing at more promising and capable levels. Initiatives become bolder and, as a result, change agents seek executive support for new resources and technology.

## **STRATEGIC:**

Individual groups recognize the strength in collaboration as their research, work, and shared insights contribute to new strategic roadmaps that plan for digital transformation ownership, efforts, and investments.

## **CONVERGED:**

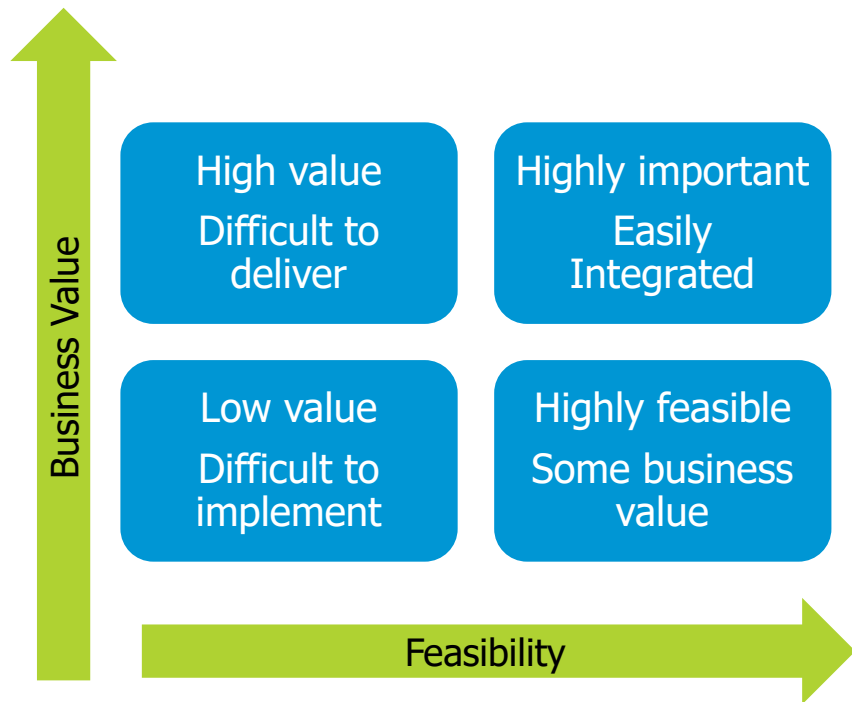

A dedicated digital transformation team forms to guide strategy and operations based on business and customer-centric goals. The new infrastructure of the organization takes shape as roles, expertise, models, processes, and systems to support transformation are solidified.

## **INNOVATIVE AND ADAPTIVE:**

Digital transformation becomes a way of business as executives and strategists recognize that change is constant. A new ecosystem is established to identify and act upon technology and market trends in pilot and, eventually, at scale.

## Building a Strategy

- C-Suite Alignment
  - Executive Vision
  - Business Drivers
- Create Clear Goals
  - Drive Outcomes
- Employee Alignment
- Determine Feasibility/Value
- Prioritize

## 1. Automate Processes

- End-to-End integrations
- Digital HR service delivery

## **Digital Ecosystem**

- Fully integrated systems
- Data protection/security

## **Digital Business Insight**

- On-demand Analytics
- Advanced algorithms to drive decision-making

## Why is HR Digital Transformation Critical?

- It eliminates administtrivia, manual processes, repetition.
- It optimizes technology to make the business more agile, connected, and effective.
- It serves the goals of the business, drives business impact, and elevates the employee experience.

**Transformation is a  
process, not a  
project**
